

TRUCKS 2009 Release 2 News

We present another great update for our truck diagnosis, where we have added the new brand IVECO

Updated brands in this release are DAF, Scania, MAN and Renault. IVECO is added as a new brand with model Stralis!

MAN is extended with model TGS 2008-2009 and with new systems on existing models. Renault is extended with model Maxity 2007-2009 and with new systems on existing models.

Below you can see some of the highlights in TRUCKS 2009 Release 2. More detailed information can be found in the application lists for your product.

DAF Trucks

LF 45

Updated 01-06 with diagnostic functions for a new engine ECS-DC3.

LF 55

Updated 01-06 with diagnostic functions for a new engine ECS-DC3.

CF 65

Updated 01-06 with diagnostic functions for a new engine ECS-DC3.

CF 75

Updated 07-08 with diagnostic functions for a new engine DMCI.

CF 85

Updated 01-06 with diagnostic functions for a new retarder system EST 42.

XF95

Updated 01-06 with diagnostic functions for a new retarder system EST 42.

MAN Trucks

TGX

Updated with diagnostic functions for a new ZF Gearbox Astronic and a new AdBlue Bosch V27 system. Air suspension ECAS 2 Wabco is updated with pressure sensors and level calibration. Updated 08-09 for systems FFR VDO with clutch calibration.

TGM

Updated 08-09 with diagnostic functions for system FFR VDO with clutch calibration and SLR Service Reset. Air Suspension ECS 2 Wabco is updated with pressure sensors and level calibration on models 2006-2009. Now a new gearbox Astronic Mid is also available.

TGL

Updated 08-09 with diagnostic functions for system FFR VDO with clutch calibration and SLR Service Reset. Air suspension ECS 2 Wabco is updated with pressure sensors and level calibration on models 2006-2009. Now a new gearbox Astronic Mid is also available.

TGA

Updated with diagnostic functions for Air suspension ECS 2 Wabco and Pressure sensor calibration. The system FFR VDO is updated with clutch calibration on models 2001-2007.

TGS – new model

TGS is a new model in our database with diagnostic functions for the following systems:

Engine EDC7 Bosch, cylinder shut-off and compression test, Brakes EBS 5 Knorr, Instrument Stoneridge High Line, ZBR 2 (Central ECU) Wabco, 2 Additive Heaters Airtronic D2/DX4 Eberspächer and Hydronic D5W, Climate BHTC Behr, Air ECAS 2 Wabco with pressure sensors and level sensors calibration. Door Module TRW, Service Recovery, Gearbox Astronic ZF, FFR VDO with clutch calibration and Ad Blue Bosch V27.

Renault Trucks

Magnum DCI

Magnum DCI is updated with these new systems: Engine ITC, ABS 18 and Air suspension Airtronic 020/027 on 2000 year models.

Updated 00-06 with diagnostic functions for Air suspension systems Airtronic 303-304/333-312 and 044-403 with level calibration. Diagnostics are also added for central ECU Vecu3 version 2 and Gearbox Astronic.

Premium DCI

Updated 98-00 with diagnostic functions for the systems Engine ITC, ABS 18 and Air suspension Airtronic 020/027.

Updated 98-06 with diagnostic functions for Air suspension systems Airtronic 303-304/333-312 and 044-403 with level calibration. Diagnostics are also added for central ECU Vecu3 version 2 and Gearbox Astronic.

Midlum DCI

Updated with diagnostic functions for year 2000 for these new systems: Brakes ABS 18 and air Airtronic 020/027.

Updated 00-06 with diagnostic functions for Air suspension systems Airtronic 303-304 / 333-312. Diagnostics are also added for central ECU Vecu3 version 2.

Maxity – new model

Maxity is a new model in our database with year models 2007- 2009. Diagnostic functions are available for engine YD25, Maxity ABS brakes. Diagnostics are also added for Instruments, ME06 two central ECU, IPDM and BC.

Scania Trucks

P-Series

Updated 05-09 with diagnostic functions on for example the engines EMS DC9, DC11, DC12 and DT 12, with increased DTC scanning. Diagnostics are added for the new brakes BMS ABS / EBS systems 6S/5M, 4S/4M, 6S/6M and 8S/7M with Extended DTC scanning, activations and reset self-adaptation. Updates for two suspension systems with extended DTC scanning and calibration of driving level on all levels and pressure sensors, Instruments with activation and extended DTC scanning, Climate control with activation and extended DTC scanning, Body Work System, Coordinator System, Air Processing System, three Auxiliary Heaters, Audio Systems, Exhaust after Treatment, two Tachograph Systems, Visibility System, Gearbox Management System, Retarder, Locking and Alarm System; all updated with activation and extended DTC scanning. All Wheel Drive System, Crash Safety System and Road Transport Informatics are other systems that have been updated with DTC scanning and real time data.

G-Series

Updated 05-09 with diagnostic functions on for example the engines EMS DC9, DC11, DC12 and DT 12, with increased DTC scanning. Diagnostics are added for new brakes BMS ABS / EBS systems 6S/5M, 4S/4M, 6S/6M and 8S/7M with extended DTC scanning, activations and reset self-adaptation. Updates for two suspension systems with extended DTC scanning and calibration of driving level on all levels and pressure sensors, Instruments with activation and extended DTC scanning, Climate control with activation and extended DTC scanning, Body Work System, Coordinator System, Air Processing System, three Auxiliary Heaters, Audio Systems, Exhaust after Treatment, two Tachograph System, Visibility System, Gearbox Management System, Retarder, Locking and Alarm System; all updated with activation and extended DTC scanning. All Wheel Drive System, Crash Safety System and Road Transport Informatics are other systems that have been updated with DTC scanning and real time data.

R-Series

Updated 05-09 with diagnostic functions on for example the engines EMS DC11, DC12, DT12 and DC16 with increased DTC scanning. Diagnostics are added for new brakes BMS ABS / EBS systems 6S/5M, 4S/4M, 6S/6M and 8S/7M with extended DTC scanning, activations and reset self-adaptation. Updates for two suspension systems with extended DTC scanning and calibration of driving level on all levels and pressure sensors, Instruments with activation and extended DTC scanning, Climate Control with activation and extended DTC scanning, Body Work System, Coordinator System, Air Processing System, three Auxiliary Heaters, Audio Systems, Exhaust after Treatment, two Tachograph System, Visibility System, Gearbox Management System, Retarder, Locking and Alarm System; all updated with activation and extended DTC scanning. All Wheel Drive System, Crash Safety System and Road Transport Informatics are other systems that have been updated with DTC scanning and real time data.

IVECO Trucks

Stralis – new model

This is a completely new model in our database with diagnostic functions for year models 2002 – 2007 for engine MS 6.2, Air Suspension, Half Air and Full Air ECAS-CAN2, Immobiliser, Driver and Passenger Module, Front and Rear Interface Module.

LCV (Light Commercial Vehicle)

Fiat

Doblo

Updated with diagnostic functions for coverage up to 2009 models for diesel engine 186A9.000 with programming of injector number cyl. 1-5 and reset of oil service for cars with particle filter. Updates for 199A2.000 with Self-Learnt Functions Reset, programming of injector number cyl. 1-4 and reset of oil service for cars with particle filter, ABS Teves MK20, SRS TRW MY03, Marelli Body Computer MY 03 with key programming function and SLR Service Reset.

Ducato

Updated with diagnostic functions for coverage up to 2009 models for diesel engine F1AE481D and F1CE481D with programming of injector number cyl. 1-4, Self-Learnt Functions Reset and reset of oil service for cars with particle filter, ABS Bosch 8 ABS, TRW 1 Airbag (proxi), Marelli Instrument Panel 1, Body Computer Marelli 6 with key programming function, Webasto Heater (KW2) and SLR Service Reset.

Fiorino

Updated with diagnostic functions for coverage up to 2009 models for diesel engine 199A2.000 with reset of oil service for cars with particle filter. Updated 08-09 for petrol engine KFV, ABS Bosch ABS 8 ESP (EP), Webasto Heater (KW2), Instrument Marelli Cluster EP with function Reset Odometer for New Car Delivery (reset function is working before the odometer passes 200 km), Delphi Body Computer (EP) 2, Bosch Parking Control Unit (EP) and SLR Service Reset.

Hyundai

H1 98-06

Updated 98-06 with diagnostic functions for Immobiliser for diesel vehicles.

H1 07-

Updated 07-08 with diagnostic functions for Heater.

Mercedes

Vito/Viano [639]

Updated 08-09 with diagnostic functions for new systems like Trailer Connection Unit (AAG169), SRS / Airbag System (Arcade639M8), Instrument Cluster (KI639M8), Upper Control Panel (OBF639M8), Climate Control Front (KLAV639M8) with adaptations of damper motors, Door, left (TSGVL639M8), Signal Acquisition and Control Module (SAM639M8), Auxiliary Heater (STH639M8) and Electric Heater (PTC9062). Updates for 2006 – 2007 models with ESP (ESP8_639) with functions for bleeding, Steering angle sensor calibration, ESP-Driving Test and Calibrate Sensors. Diagnostics are also added for Gearbox and SLR Service Reset up to 2009-year models.

Renault

Kangoo

Updated 98-03 with diagnostic functions. Petrol engines have a general update with more systems and ISI (Intelligent System Identification) functionality to identify the correct Vdiag and program number.

Master

Updated 04-07 with diagnostic functions for ABS.

Trafic II

Updated 04-07 with diagnostic functions for ABS.

Skoda

Roomster

Updated with diagnostic functions for 2009 with a great coverage of the vehicle.

Volkswagen

Caddy

Updated 03-08 with diagnostic functions for a general configuration for the extra Heater.

Transporter and Multivan.

Updated 03-08 with diagnostic functions for a general configuration for the extra Heater.
