

Electro hydraulic scissor lift for motorcycles for surface installace.

Capacity 750 KG

DATI TECNICI UP05 / TECHNICAL DETAILS UP075

- Funzionamento / Operation.....Elettro idraulico / Electro-hydraulic.
- Portata / Capacity.....750 Kg.
- Peso / Weight.....220 Kg.
- Tempo di salita / Lifting time.....20 sec.
- Tempo di discesa / Lowering time.....20 sec.
- Motore / Motor.....Monofase / single phase 220V 1.1 Kw 50Hz.
- Temperatura di funzionamento / Working temp.....0° / +40°
- Pressione di esercizio / Working max pressure.....220 Bar
- Corrente / Current5,2A

CHARACTERISTICS

- Hydraulic system equipped with safety mechanism in case of failure due to broken tubes.
- Device for manual descent in case of power failure.

DIMENSIONI DI INGOMBRO / OVERALL DIMENSION
